

# Buying Real Silk Fabric

by Caroline Campbell (11 February 2021)

Do you have the real silk?  
We have everything  
from organic cotton  
to pure mulberry silk.  
Look at the yarn  
at the cut edge of the fabric.  
Is the fiber soft?  
Real silk is premium and luxurious  
and its sheer elegance and purity  
is delicately extracted  
in a time-consuming process  
and spun into soft silk yarn.  
Customers have big doubts  
about its purity  
when they want to buy natural silk.  
If you scrunch it up in your hand  
you should hear a crunching noise.  
That should tell you  
it is high quality genuine silk.  
Check out our silk collection today.
